

Hassan Ali

Performance Marketing Specialist | Paid Media, Measurement, Web and Digital Operations

+92 341 6495097 | adswithhsn@gmail.com | advocate.dev | [Upwork](https://upwork.com) | Islamabad, Pakistan

PROFESSIONAL PROFILE

Performance marketing specialist and digital operator working across healthcare, online education, ecommerce and service businesses. I build paid acquisition, conversion-focused websites, GTM and GA4 measurement, platform tracking, and internal reporting that connects campaigns to qualified enquiries, purchases and recurring revenue.

SELECTED RESULTS

135 qualified Meta leads at \$8.54 CPL | **7** Academy students generating £400+ monthly recurring revenue | **50+** internally recorded healthcare outcomes with approximately 3x mapped return

CORE CAPABILITIES

Paid media Google Ads Search, Shopping, Performance Max, Display and YouTube; Meta prospecting, lead generation, ecommerce, retargeting, creative testing, search-term control and budget pacing

Measurement GTM, GA4, Google Ads conversions, Enhanced Conversions, Meta Pixel and CAPI, Shopify Customer Events, dataLayer events, deduplication, UTM and ValueTrack governance, offline outcomes

Web and CRO WordPress, Elementor, Shopify, WooCommerce, Squarespace, Acuity, Next.js, Supabase, Vercel, forms, mobile conversion UX and landing-page analysis

Creative and reporting ChatGPT and Codex, Claude and Claude Code, Gemini, AI image and short-form video workflows, Canva, Premiere Pro, After Effects, Looker Studio and Google Sheets

PROFESSIONAL EXPERIENCE

Performance Marketing and Digital Operations Specialist | [advocate](https://advocate.dev)

Jan 2026 - Present

Remote | [Portfolio](#)

- Generated 135 qualified leads for a Lahore dental clinic at an average \$8.54 CPL across cold and retargeting Meta campaigns. Both campaigns achieved Above Average quality ratings, and the clinic reported that 60% of leads became booked appointments.
- Built a Google Search campaign for a Shopify store from zero, producing 3,240 clicks at \$0.94 CPC and 52% month-on-month growth. The associated tracking foundation recorded 47 verified purchases and \$3,840 in dynamic revenue.
- Built and QA-tested Google Ads, Meta, GTM and GA4 systems across WordPress, Shopify, Squarespace and Acuity, including Enhanced Conversions, CAPI, event deduplication, booking actions and validated setups reaching Event Match Quality 8.0 out of 10.
- Created AI-assisted product images, campaign creatives and short-form video concepts, then refined them in Canva, Premiere Pro and After Effects for paid-media formats and brand consistency.

Growth and Digital Operations Specialist | First Health Care + AI Sadiq Academy

Jul 2026 - Present

Islamabad and remote | [First Health Care](#) | [Quran Academy](#)

- Took over First Health Care after approximately seven months of loss-making advertising and moved paid acquisition into positive return in the first month. Reconciled operating records now contain 50+ qualified outcomes and service starts, with approximately 3x mapped return.
- Built the complete First Health Care and Academy WordPress websites, including eight healthcare service routes, mobile conversion journeys, Academy course pages and a free 30-minute trial path, while preserving forms, URLs, tracking and SEO constraints.
- The Academy has acquired 7 students producing more than £400 in monthly recurring revenue after approximately PKR 120,000 (about £325) in initial advertising spend.
- Implemented first-party attribution for forms, phone and WhatsApp actions, campaign identifiers, reference codes, coordinator follow-up, payments and offline commercial outcomes. I am also building the First Health Care management system so reporting does not rely only on ad-platform dashboards.

Website Contributor and Acquisition Operator | UK Sofa Shop

Current project

United Kingdom and remote | uksofashop.co.uk

- Contributed approximately half of the custom ecommerce website build and worked across product journeys, Meta Ads, Google Ads, GTM, GA4 and order measurement.
- A privacy-safe 15-day admin review captured 28 orders and £8,556 in open-order value; Meta separately reported 18 attributed purchases. I also implemented product, cart, checkout and order events so platform attribution can be checked against operational records.

Hassan Ali

Performance Marketing and Digital Operations

CURRENT PROJECTS AND OPERATIONS

Sole Digital Operator | VistaMax Consultants

Current project 2026

Islamabad and remote | vistamaxconsultants.com

- Own the platform end to end: market research, service positioning, copy, UX, website development, enquiry flow, operational planning and partnership outreach.
- Built the complete Next.js website, connected Supabase for enquiries and operational data, and deployed the system on Vercel with consistent desktop and mobile journeys.
- Researched 308 university prospects across 9 markets, recording institution type, official contact routes, fit scores, verification status and next outreach steps without presenting prospects as completed partnerships.

Business Development and Digital Operations | First Healthcare Limited

Current responsibility

United Kingdom and remote

- Support supplier onboarding, opportunity development, commercial communication and digital growth planning. This is an ongoing operating role, and unfinished initiatives are not presented as completed results.

Marketplace Operator | Amazon and eBay

Current project

United Kingdom marketplace accounts

- Manage product and competitor research, account configuration, listing preparation and launch sequencing. The public eBay account shows 322 items sold, 155 feedback entries and 98.7% positive feedback.
- The Amazon UK account is in healthy standing with four products currently in setup. It is presented as an active build rather than a sales-result case study.

EARLIER EXPERIENCE

Digital Marketing Specialist | VistaMax Consultants Pvt Ltd

Jul 2025 - Dec 2025

Islamabad, Pakistan

- Managed Google Ads and Meta Ads across client accounts, covering campaign setup, audience structure, ad copy, budget pacing, search terms, negative keywords, weekly optimisation and reporting against CPL, CPA, ROAS, CTR and lead quality.
- Reduced estimated wasted spend by 20% to 30% by identifying duplicate conversion events, improving tracking accuracy, tightening negative-keyword controls and flagging weak landing-page paths and low-quality lead sources before scaling.

CREATIVE LEADERSHIP

Co Lead Graphics Team | Google Developer Groups on Campus COMSATS

Feb 2025 - Jun 2025

- Delivered campaign-ready visual identities and social assets for more than five events while maintaining Google global brand guidelines.

Creative Team Lead and Head of Magazine | CDCS Society COMSATS

Sep 2023 - Dec 2024

- Led a 20-member team producing three print editions of COMSIGHT magazine and directed video, motion, typography, layout and final-export workflows under deadline.

EDUCATION

Bachelor of Science in Computer Science | COMSATS University Islamabad

Graduated Jan 2026

Islamabad, Pakistan
